

AIML4Parents

*An Informative Program
for Parents of school going children*

by
Prof M M Pant

In this age of rapid change driven by Artificial Intelligence, Machine Learning and related technologies, parents of school going children are bewildered with the choices for the future of their children.

[Professor MM Pant](#) has been an academic for more than 50 years. He is closely associated with the IIT system having received a Ph.D. in Computational Physics from IIT Roorkee, taught as a faculty at IIT Kanpur for about a decade and having been a member of the Board of Management of IIT Delhi for 6 years.

Through this short weekend course delivered on Whatsapp, it is his endeavour to make such parents more aware and informed on matters related to emerging nature of jobs and education, which are the foremost concerns of most parents.

Program Details :

Day 1: Saturday : Impact of AI on the nature of jobs

- 1.1: Tipping points for AI technology applications
- 1.2: Job losses due to AI and Robots
- 1.3: Future career opportunities in the age of AI
